HAIX® Secura Liner®:

Footwear inner liner which will never pull out or wrinkle up over time; lining is firmly secured and sealed along with the upper leather beneath the sole.

HAIX® Sun Reflect Leather:

Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

HAIX® Climate System:

Permits air circulation with every step – moist air is released and fresh air comes in through the vent holes at the top of the boot.

HAIX® AS System:

Supports the arch of the foot in its natural, ideal position

Upper Material:

Soft and supple waterproof leather, hydrophobic, breathable.

Moisture Barrier:

CROSSTECH® Laminat Technology; 3-layer CROSSTECH® laminate, watertight and breathable. Abrasion-resistant lining with optimized climate comfort for all seasons, espec. For flexible alternating inside and outside use. Superior penetration resistance against blood and body fluids (protection against blood borne bacteria and virus). Increased chemical protection.

Sole:

Rubber compound outsole with PU wedge which is fuel, oil, and skid resistant, with a non-marking, self-cleaning, antistatic tread. Excellent insulation against heat and cold.

Insole:

Anatomically formed, quick change, machine washable insert with excellent moisture absorption and quick drying qualities.

Footbed:

Anatomically formed TEXON (fleece) absorbs moisture and supports ankle

Other:

Anatomically formed and softly padded tongue, lightweight, high quality quick lacing eyelets, highly breathable nylon fabric, and reinforcement in the toe and heel area.

Extended Wear Program:

Out of warranty footwear can be refurbished with original factory parts through an extended wear package. This package includes any necessary replacement or repair of stitching, profiled rubber toe caps, insoles, and retreading of soles. Footwear will be cleaned and deodorized. HAIX footwear owners also have the option of a sole retread only or a toe cap replacement only.
