

SceneStar™ LED Scene Light ELSS-SLDC, ELSS-XLDC, and ELSS-XLAC

The SceneStar LED High Power Scene Light has been engineered to provide maximum visibility across your emergency scene with exceptional light output. The scene light features the latest in LED technology, vibrant white light, low operating temperatures, engineered optical control and the Akron Brass quality you have come to expect. Solid-state electronics ensure a lifetime of peak performance. The SceneStar is a brilliant combination of performance, durability, efficiency and style.

- Available in AC and DC versions
- Outstanding light output and overall illumination
- Optimized thermal management reduces LED temperatures for long life and reliability
- Streamlined aesthetics in a compact design
- Low ultraviolet light reduces insects during nighttime operation
- Standard powder coat paint in white (Black optional)*
- Heavy-duty 6 year warranty
- Serviceable construction

Mounting Options:

- Tripod
- Pole
- Portable
- Recessed
- Brow
- Fixed
- Under Aerial

*Handles and heat sink always black

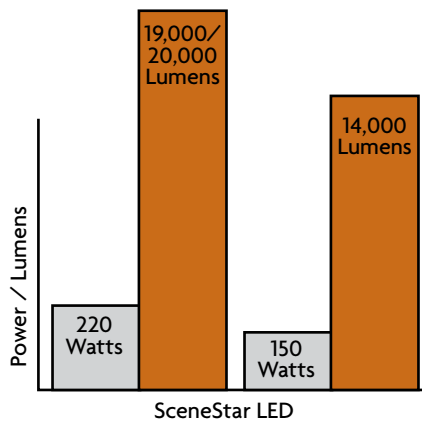

SceneStar™ (220W)

Quartz Halogen (500W)

Brighter White Light Using Less Power SceneStar LED Vs. Quartz Halogen
