

Major expansion for 1200 Degrees – Techno Feu

Trois-Rivières, May 11th, 2021 – Leader in the selling, repair and rental of firetrucks as well as fire equipment, 1200 Degrees is proud to announce the major expansion of its branch Techno Feu in St-François-du-Lac, as well as its official opening.

More than 1,5 million dollars invested in a major expansion project for Techno Feu

With an addition of over 12,500 square feet in space, the company will thus be able to significantly increase its volume of preparation and maintenance of fire trucks and will thus be able to meet the demand of the municipalities, which is constantly growing. This project aims, amongst others, the inclusion of six supplementary doorways, additional administrative offices, a new store for the parts department that triples the initial surface area as well as a trendy cafeteria.

« This major project at Techno Feu is the picture of our important growth in recent years and of strategic affiliations coming in the next few years. With our expertise, our zeal and our credibility that dominates on the market, we were able to build a complete service offer and especially accessible to municipalities across eastern Canada. We intend to remain one of the most important Canadian suppliers in the field and we give ourselves the means to achieve it », mentions François Proulx, President of group 1200 Degrees.

Furthermore, other projects such as this one will be revealed before the end of the year 2021. All those projects and investments support the growth of group 1200 Degrees and ensure the creation of new quality jobs for the region.

ABOUT 1200 Degrees

Group **1200 Degrees** (Techno Fire, Boivin&Gauvin and Darch Fire) is the biggest specialised grouping in sales and rental of firetrucks and fire equipment in eastern Canada. The company of which the offices are located in Trois-Rivières, St-François-du-Lac and Ayr (Ontario) could thus offer those skills and its passion to the fire and industrial departments of Quebec, Ontario and the maritime provinces. With major customers such as the city of Montreal, the city of Toronto, the National Defence and much more, the team of more than 60 persons works consistently on a weekly basis to provide an excellent customer service and the best products on the market.
